IMPORTANT NOTICE

Attorney Docket No.

S16.12-0111

NOTICE TO:

1. INVENTOR(S) SIGNING THIS APPLICATION
2. PERSONS ASSOCIATED WITH THIS APPLICATION

The Inventor(s), must read and approve the contents of this application including the Declaration, which is contained on the last page of this application, before signing.

Under Title 37, Code of Federal Regulations, § 1.56, the inventor(s) and each individual substantively involved in the filing and prosecution of this patent application has a duty of candor and good faith in dealing with the U.S. Patent and Trademark Office ("PTO"), which includes a duty to disclose to the PTO all information known to that individual to be material to patentability as described below. **NO valid patent will be granted where fraud on the PTO was practiced or attempted or the duty of disclosure was violated through bad faith or intentional misconduct.** The PTO encourages you to carefully examine all information that may affect patentability, such as prior publications, prior disclosures to others, prior sales and offers for sale, prior art cited in foreign search reports, and prior uses, to make sure that any material information is disclosed to the PTO.

Information is material to patentability when it establishes, by itself or in combination with other information, possible unpatentability of the invention, or it refutes, or is inconsistent with, a position the applicant takes in any arguments with the PTO.

To comply with this duty, disclose material information to us.

In sum, if you know of any pertinent prior uses or publications, or any sales, or offers for sale of similar devices before this application is filed with the PTO, you must let us know. You must let us know this information whether the prior uses, publications, sales or offers for sale were made by you or others, or whether they were made for your invention or another similar device. Further, if you know of prior work on the same or a similar invention by someone other than the inventor(s) signing, you must also disclose this information to us.

If you have any questions, please ask them now. Complete disclosure is not only required, but will increase the likelihood of obtaining enforceable patent protection.

After the application is approved, the last page of the application must be signed and dated by the inventor(s) in the spaces provided, and the entire application must be returned to us for filing in the PTO.
